Plug PC CXP 2310

Simple, efficient, scalable - this is not your old PC. The new **Plug PC CXP 2310** from Chip PC ushers in a new era that will take the virtual desktop and thin client beyond the familiar desktop experience to the superior!
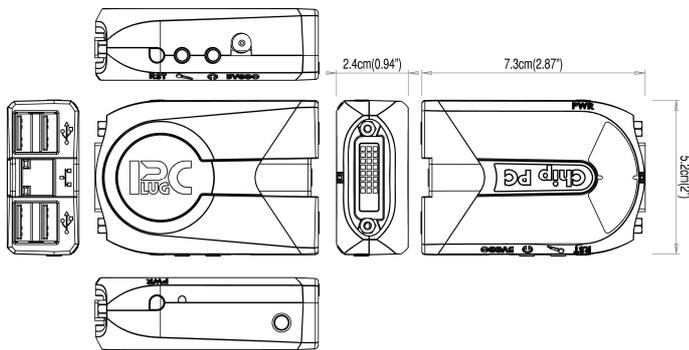

The **Plug PC CXP 2310** owns a small OS footprint (less than 25 MB), Microsoft Native RDP 6.0 and supports Citrix® HDX MediaStream (multimedia redirection). HDX MediaStream leverages the processing power of the device to render the multimedia content sending the compressed multimedia information directly to the device in its native format. Supporting integrated video redirection via Citrix® HDX MediaStream support, the in-session video is redirected to be run locally. Such redirection contributes greatly to highest video performance levels.

The **Plug PC CXP 2310** draws as low as 3 watts of power at maximum load featuring on-board multimedia acceleration; with its design centered on ease-of-use it provides seamless integration into cloud, desktop virtualization and server-based computing environments.

The **Plug PC CXP 2310** offers an industry-leading management and monitoring solution via the **Xcalibur Global**, with intelligent application of Microsoft Policy-based, Active Directory rules and permissions structure. Implementation is simple, efficient and scalable. The benefits for IT organizations are simplicity in deployment and maintenance, with the added benefit of the lowest power consumption desktop appliance in any class.

The **Plug PC CXP 2310** is a splendid combination of contrasts as a desktop appliance smaller than a pack of cards yet very powerful; providing full function multimedia video performance in a 3 watt ultra green platform of only 6 cubic inch in size.
