Slim PC Smart Client Specifications

* Intel Core i7/ i5/ i3 processors
* Dual DDR3 memory support up to 16GB
* Fanless with Pentium®G620T (2.20 GHz) CPU
* Gigabit LAN, HD Audio integrated
* Opt: WiFi, Smart Card Reader, BT, 2.5" HDD

CPU	1. Support for Intel® Core™ i7 processors/Intel® Core™ i5 processors/ Intel® Core™ i3 processors/Intel®Pentium® processors/Intel® Celeron® processors in the LGA1155 package 2. L3 cache varies with CPU
CHIPSET	° Intel® H61 Express Chipset
Graphic	° DVI-D and VGA connectors for processors with Intel HD Graphics
MEMORY	1. Two 240-pin DDR3 SDRAM Dual Memory Module (DIMM) sockets 2. Support for DDR3 1333/1066 Mhz DIMMs 3. Support for up to 16GB of system memory

EXPANSION	1 x PCI Express 2.0 x 1 1 x PCI Express Mini Card x 1
STORAGE	3 x SATA 3Gb/s connectors (SATA2 0~3) supporting up to 4 SATA 3Gb/s devices
AUDIO	1. Realtek ALC892 audio codec
LAN	Intel 82579V Gigabit LAN
REAR PANEL I/O	1. 1 x PS/2 Keyboard/Mouse port 2. 2 x USB 2.0 ports, 2 x USB 3.0 ports 3. 1 x VGA port 4. 1 x parallel port 5. 1 x DVI-D port 6. 3 x audio jacks (Line In/Line Out/Microphone)

- Device package includes device, power supply and documentation, Monitor, keyboard and mouse - to be purchased separately
- Software licenses - to be purchased separately
- Specifications are subjected to change without prior notice

The Company

Since its inception, Chip PC has been a world leader in providing innovative desktop solutions for the Cloud. A private company with branches in Europe and the U.S., Chip PC develops and manufactures, top notch, zero and thin client technology and management systems.
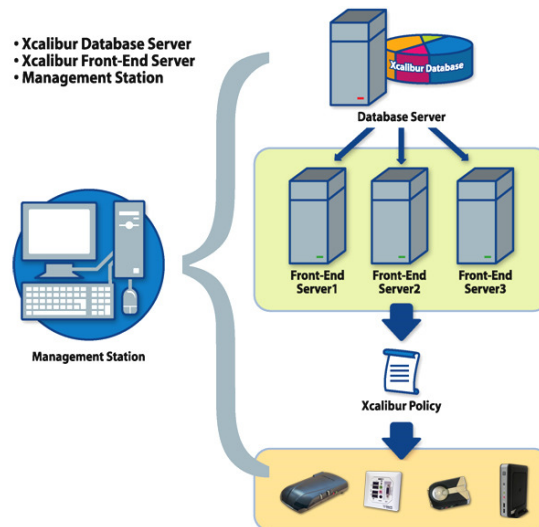

Chip PC's team of dedicated researchers and developers have combined their years of experience to yield novel ideas and deliver an outstandingly innovative family of smart, zero and thin client products.

With the award winning Xcalibur Global management system and innovative smart, zero and thin client units, Chip PC maintains a leading market position with its end-to-end solution.

The End-to-End Solution

Chip PC is aimed at solving the thorny problem of combining intelligent client networking with sophisticated management and control. Chip PC's unique solution constructs a ground-up client network from the revolutionary Jack PC that fits into a standard wall jack, through the LXD and HD PC Series', state-of-the art, powerful, desktop units and miniature Plug PCs.

These server-centric, revolutionarily designed units for the Cloud are comprehensively managed by Chip PC's Xcalibur Global. The Xcalibur Global Management System simulates an Active Directory environment with intelligent usage of its management principles of policies and tools and offers flexible management that applies down to the specific needs of every particular client unit or user.
